6 Chapter 2 11 Electronegativity The electronegativity of the elements, adapted from Smith&Hashemi Electronegativity is a degree to which an atom attracts electron to itself Chapter 2 12 Chemical reactivity: valence e-s

### **Chapter 2: Atomic Structure and Chemical Bonding**

Chemical biology is a scientific discipline spanning the fields of chemistry and biology. The discipline involves the application of chemical techniques, analysis, and often small molecules produced through synthetic chemistry, to the study and manipulation of biological systems. In contrast to biochemistry, which involves the study of the chemistry of biomolecules and regulation of biochemical ...

Chemical warfare (CW) involves using the toxic properties of chemical substances as weapons. This type of warfare is distinct from nuclear warfare and biological warfare, which together make up NBC, the military acronym for nuclear, biological, and chemical (warfare or weapons), all of which are considered "weapons of mass destruction" (WMDs). None of these fall under the term conventional ...
