Handbook of Infant Development - GBV

views of adult cognitive development. We categorize two major types of meta-metaphors for adult development – ladders and webs which engender different portraits of adult cognitive development. Developmental ladders characterize development as a simple fixed progression, following monotonic change, with one step following another in a single direction.

parents, providers, the Child Care Information Services, CCIS, and the Office of Child Development and Early Learning. The children of Pennsylvania are the keys to tomorrow. We prepare our children during the early years so that they are ready for each stage of learning. Each county in Pennsylvania has a CCIS Office.

A Parent's Handbook to Subsidized Child Care

Additionally, the current contact intervention also drew from social identity development theory (Nesdale, 2007) which proposes that children's intergroup attitudes are significantly influenced by their identification with social groups, particularly as they are heightened during middle and late childhood (Rubin, Bukowski, & Parker, 2006).
