iii. Foreword. Biosafety in Microbiological and Biomedical Laboratories (BMBL) quickly became the cornerstone of biosafety practice and policy in the United States upon first

Biosafety in Microbiological and Biomedical Laboratories

A medical laboratory or clinical laboratory is a laboratory where tests are carried out on clinical specimens in order to obtain information about the health of a patient in order to provide diagnosis, treatment, and prevention of disease. Clinical laboratories are thus focused on applied science, mainly on a production-like basis, as opposed to research laboratories that focus on basic ...
